

Liquid UI: Reference Multiple Selection Fields

Purpose

To reference the multiple selection pop-up for a field that is available and displayed on different screens.

User Interface

Log into SAP and on the SAP Easy Access Screen you will see the Liquid UI fields. Enter the values and click on the multiple selection pushbutton ().

The screenshot displays the SAP Easy Access interface. At the top, the title bar reads "SAP Easy Access". Below it is a navigation bar with icons for a user profile, a document, a folder, and a menu, followed by the text "Other menu". To the right of this are icons for a star, a trash can, and a pencil, followed by up and down arrow icons. Further right are icons for a user profile, the text "Create role", a user profile icon, the text "Assign users", and a document icon with the text "Documentation". The main content area shows the text "Purchasing Document" followed by a text input field with a red border. To the right of this field is the word "to" followed by another text input field. To the right of the second input field is a pushbutton with a green square and a yellow arrow pointing right.
