6.3.08 Adding Roles to Users in NetWeaver Portal

After you have created the users, you must add your previously created roles to those users. To add roles to users, please do the following.

1. In the NetWeaver Administration go to the following location.

User Administration > Identity Management

2. Choose 'User' from the Get drop-down menu and enter the name of the user to be modified as shown below:

The screenshot shows a search interface with the following elements:

- Search** header
- Get** dropdown menu set to **User**
- Search input field containing ***FuzionDemo***
- Go** button
- Advanced Search** button
- Select All** button
- Deselect All** button
- Create User** button
- Copy to New User** button
- Delete** button

3. Click the Go button and a list of users matching the search criteria will display as shown below

Unique solution ID: #1368
