

Workbench User Interfaces

5.1.3 Workbench - Toolbar

The Workbench toolbar is located directly below the menus and appears as follows.

There are four icons contained in the toolbar. These are explained as follows.

Record

Click this icon to start or stop a recording. it corresponds to the Record command on the File menu.

Open

Click this icon to open an existing recording. This icon corresponds to the Open command on the File menu.

GUIXT

Click Save to save a file. The default location and filename will be used - you cannot alter it with this option. it corresponds to the Save command on the File menu.

About

Display the About dialog that we previously explained.
