

Using SAP Materials Management Console

3.1.1 SAP Header Details

Explanation of the header details table in the DMC.

Located beneath the toolbar is a table that contains the header details for the selected material. The table appears as shown below and in it you can view information related to the material.

Note: The information contained within this table will change depending on the material chosen.

Material #	3605-8	 Execute	Description	COMPUTER ST.
Engine Type	TBA		Aircraft Type	DHC,DHC8,DHC8-100,DHC8-200 ▲
ATA	27330001,99999999		ATA Chapter	27,72
CLP	10,641.00		FSC Code	83326
CLP Date	01.01.2002		Part Type	ROTO ▼
Notes	There are no export concerns for part 3605-8 as long as it for commercial usage and not being shipped to a country controlled for Anti-			

The header data displayed can be changed by the using the layout button on the toolbar, as previously described. The available layouts are as follows:

- Inventory - Sales Layout
- Inventory - Assets: Airframe Data Layout
- Inventory - Assets: Engines Data Layout
- Inventory - Boeing Programs Layout
- Inventory - Sales UK Layout
- Inventory - Repairs Layout

Please see the [Toolbar](#) section for instructions on how to set the layouts in the header details table of the MM Console.
