

Using SAP Materials Management Console

3.1.3 SAP Stock Layout

Explanation of the stock layout table in the DMC.

Located beneath the header and inventory tables is a table that contains inventory information for the selected material. The table appears as shown below and in it you can view information related to the actual quantities in stock.

Inventory - Sales Layout													
	StorLoc	Description	Batch	C	Fixed Price	Fixed Price...	Low Sell	Total Qty	Unrestricted	Blocked	Qual.Insp.	MAV	Service Cc
<input type="checkbox"/>	Quote	BOCA		N	0.00	00/00/0000	0.00	0	0	0	0	0.00	0.0
<input type="checkbox"/>	Quote	BOCA		N	0.00	00/00/0000	0.00	0	0	0	0	0.00	0.0
<input type="checkbox"/>	Quote	SEA1	5000353974	S	3,800.00	09/20/2010	5,000.00	1	1	0	0	1,643.98	0.0
<input type="checkbox"/>	Quote	SEA1	5000353977	S	3,800.00	09/20/2010	5,000.00	1	1	0	0	1,643.98	0.0

This section is a combination buy and sell inventory details. In this table, you can view the batch, price sold and other such information. You can also create a quote if you want to sell more of that material. There are seven different layouts possible. Click the Select Layout toolbar button to change layouts. In addition, you can create a new quote from this table. To create a new quote, please do the following:

1. Click on the row in the first column for which you wish to create a quote.
2. A new quote will be created.

To view the batch details for a given material, click the third column.

Note: The information contained within will change depending on the material chosen.
