

WS Changing Elements

6.04 columnheader()

Purpose

With `columnheader()`, you can change the name of the column in SAP table.

This command can change the column name in a table control in an SAP screen. It can also be used to add an icon and tooltip to a table header.

Note: `columnheader` can only be used on native SAP table columns. It will not work on Liquid UI table columns.

Syntax

- For Native SAP tables

```
columnheader("Col_name", "new_Col_Name");
```

This syntax below is used when there are multiple tables on the screen.

```
columnheader("table_name, column_name", "new_Col_name");
```

Available Options

The `columnheader` command does not take any options.

Example

To show the usage of `columnheader()` command, we will use an existing table from VA02 Create Standard Order: Overview section that shows scenario of usage of this command:

WS Changing Elements

The screenshot displays the SAP 'Change Standard Order 5235: Overview' screen. At the top, there is a menu bar with 'Sales document', 'Edit', 'Goto', 'Extras', 'Environment', 'System', and 'Help'. Below the menu is a toolbar with various icons. The main content area is divided into several sections:

- Order Header:** Standard Order 5235, Net value 466.470,88 DEM. Sold-to party and Ship-to party are both 'Elektromarkt Bamby / Adlerstrasse 452 / 07545 Gera'. PO Number is 'Dq-19971022-2z' and PO date is '22.10.1997'.
- Navigation Bar:** Includes 'Sales', 'Item detail', 'Item overview', 'Ordering party', 'Procurement', 'Shipping', and 'Reason for rejection'.
- Order Details:** A grid of fields including 'Req. deliv.date' (01.01.2010), 'Deliver.Plant', 'Total Weight' (6.230 KG), 'Delivery block' (Bottleneck material), 'Volume' (73,200 M3), 'Billing block' (new price as of...), 'Pricing date' (22.10.1997), 'Payment card', 'Exp.date', 'Payment terms' (ZB01 14 Days 3%, 30/2...), 'Incoterms' (CIP Gera), 'Order reason' (Material ruined), and 'Sales area' (1000 / 12 / 00 Germany Frankfurt, Sold for resale, Cross-division).
- All items Table:** A table with columns: Item, Product, Order Quantity, SU, S, Description, Customer Material Numb, ItCa, DG..., HgLvIt, D First c. It contains two rows:

| Item | Product | Order Quantity | SU | S | Description | Customer Material Numb | ItCa | DG... | HgLvIt | D First c |
|---------|---------|----------------|-----|---|----------------------------------|------------------------|------|-------|--------|-----------|
| 10L-80F | | 1 | CAR | ✓ | Pumpe Shgfhjss Etanorm 170-23... | | TAN | | | 0 D 23.10 |
| 20L-60F | | 253 | CAR | ✓ | Gluehlampe 60 Watt matt 220/2... | | TAN | | | 0 D 23.10 |

Script Details

SAPMV45A.E4001.sjs

```
columnheader("All items,Material","Product");
```

Usage Details

- [Liquid UI: Table manipulation](#)
